

Scenarios Where Self-Healing is Beneficial

Ideal Use Cases

1. Frequently Changing UI

- 1.1. Agile products with rapid UI changes

2. Dynamic Attributes

- 2.1. Auto-generated IDs
- 2.2. Dynamic class names

3. Large Regression Suites

- 3.1. Hundreds of test cases
- 3.2. Maintenance cost is high

4. Cross-Browser Testing

- 4.1. Different DOM behaviors across browsers

5. CI/CD Pipelines

- 5.1. Prevent pipeline failures due to minor UI changes Document
